RECENT PROJECTS

❖ www.thecompleteactor.com

The web application for the famous actor Mohanlal Sir's official website. The Admin Panel Operations are done by me, which include photo gallery, video gallery, art gallery, news, awards, movies, movie updates, home page contents, approval of user comments, fans corner etc. The application is done using the framework Laravel and the mysql is used as the backend of the application.

Role :- Developer

Team Size :- 6

❖ www.karayogammagalyam.in

A matrimony application targeting the people of Ernakulam Karayogam. This application contains an admin panel and a client dashboard, it manages separate accounts for each user registered in it. Laravel framework is used for development. I had worked on the admin panel of the application which includes functionality of Enable/Disable user, approve Users, various list of members (active/inactive/paid/expired/expiring members), SMS and Email.

Role :- Developer

Team Size :- 5

❖ www.hindukalyanam.com

A matrimony application specifically focusing on the Hindu community. This app contains an admin panel and a client zone, it manages separate accounts for each user registered in it. The Laravel framework is used for development. In this project I worked on the client as well as the admin dashboard of the application. In client dashboard listing of profiles, showing the detailed profile, the profile visitors, send and received interests ,integration of SMS Gateways and Mail integration was developed.

Role :- Developer

Team Size :- 5

❖ www.ernakulamkarayogam.com

This web application deals with day to day activities of Ernakulam Karayogam. This application provides an Admin Control Panel which includes the TDM hall booking and also the admin can manipulate all the pages including gallery.

Role :- Developer

Team Size :- 4

❖ www.digitalschooldiary.in

Digital School Diary is a school management package specifically designed to help teachers and school management to provide better schooling experience for students and to keep parents informed about every detail of their children's curricular and co-curricular activities at school.

Role :- Developer (Development of Web Services)

Team Size :- 6

❖ www.devotionalstore.com

An e-commerce web application for selling the devotional items, based on the shopify e-commerce platform.
