PROJECT UNDERTAKEN

Title : MY KISAN

Programming Languages : c#.NET, SQL SERVER 2008

Details : ‘My KISAN’ is a website purely based on farming and intended for farmers. This project provides online information, which is one of the features of ‘My KISAN’. The Bazar helps you to purchase

and select agricultural products. And also provide the users some services like knowing about different plans offered to farmers such as the loan details, investment details etc. It serves as an easy publicity tool.

Title : Customer Shopping Analysis In Retail Industry

Programming Languages : HIVE, PIG, R language.

Details : This project is intended to gather customer's data from various retail shops and conduct the analysis to find best performed and least performed customers from each country and year .

Title : Online GramaPanchayath

Programming Languages : c#.NET, SQL SERVER 2008

Details : This project is aimed at developing to understand Gramapanchayath and their activities. Main attraction of this project is that it allows users to download certificates like Birth, Death, and Marriage also know the Panchayath plans and Tenders. Users can apply directly through this site, and they will give details and approval of this certificates through this site. Also users can write feedback and complaints here.
