Hindi

PROJECT & SEMINARS

Mini Project: Online Student Record Using PHP & MySQL.

The aim of the project was to create an online student record or mark sheet which can be accessed by both students and college authorities.

Seminar: TRAFFIC AWARE DESIGN OF A HIGH-SPEED NETWORK INTRUSION DETECTION SYSTEM.

In this work, we promote a different, traffic-aware, modular approach in the design of FPGA-based NIDS. Instead of purely splitting traffic across equivalent modules, we classify and group homogeneous traffic, and dispatch it to differently capable hardware blocks, each supporting a (smaller) rule set tailored to the specific traffic category.

Main Project: Centralised Open Course Ware Portal

An online portal which brings together the various OCWs offered by different universities and present easy comparison of various courses using a ranking algorithm and rating system.

EDUCATION

B.Tech

Board: CUSAT

Institution: College Of Engineering Chengannur

Year Of Passing: 2016

Aggregate: 61.26

Class XII

Board: STATE

Institution: Metropolitan HSS Puthencavu

Year Of Passing: 2010

Aggregate: 86.5

Class X

Board: STATE

Institution: Sree Bhuvaneshwari HSS Mannar

Year Of Passing: 2008

Aggregate: 88.5
