PROJECT WORK

TITLE	TECHNOLOGY	DESCRIPTION	GROUP MEMBERS
Enigma Stegno	Java MySQL	The main objective of this project is security during file transmission from one end to another end both in Internet and private network. Firstly the target file is encrypted and it is embedded into an audio or video or any media file. The resultant file will be protected by a password. This resultant media file is not changed in its original format and it can be run in the player, we can't find any encrypted data inside it. This format will be sent through net.	4
