Greetings From Seek Eazy !!

We give you an Easy Way to Process & Track Job Requirements.

We help you to track 3 steps in Recruitment
Business Development – Recruitment Management – Placement

We help you to manage your BDM activities

- ✓ **Maintain the list of clients, Create Folders like Feeds, Leads and Clients**
- ✓ **Flag them with call status, call details, next call date, feedbacks, client status etc.**
- ✓ **Record Multiple Contact Phone Numbers, Location, Building etc for BDEs**
- ✓ **Schedule a call back as a Task for future, helps to follow up on time. Never miss an opportunity**

Rejected Applications? why? Any reason?

Rejections can come in all steps in the interview. Can you identify this?

1. Rejection in Application itself – unsuitable applications comes in this phase
2. From Shortlisted list – sometimes recruiters find the profile is not good
3. From Client Interviews- Most rejections happen in this phase
4. Rejection by candidate when they are offered
5. Rejection in contract period

How can we track rejections and use the same profile in other requirements?

Seek Easy helps to identify these profiles and its easy to copy those profiles to another job, with a single click, no need to re-enter the same data again.

We show an indication to each job application, the number of applications by the same candidate to other jobs

Can we effectively use Rejections from Interview list?

Yes, Profiles are already checked in the interview list, so its easy to bring to other jobs, save time in initial screening.

Why a candidate rejected an offer? Do you know the reason?

Identify reasons why they rejected an offer. Give proper advice to the candidate and clear pass next interview. Its easy to identify who are rejected, and take them to other jobs.

Can we Track/Schedule all interviews? Technical, HR, Walk-in, Telephonic

Yes, add multiple interviews, see it's status. See how many interviews going on in each requirement, see all schedules with candidates

Is it possible to copy the list of applications from other jobs to a new one?

Yes, with a single click!!!

1. Candidate Profile Assessment

We bring an option to assess each candidate profile for future. Make sure that each candidate profile is ready for submission to the client. We can assess candidates and rate them at scale of 1 to 10.

1. **Language**
2. **Experience**
3. **Tech Skills**
4. **Domain Experience**
5. **Attitude**
6. **Personality**
7. **Team work**
8. **Corporate Experience**
9. **Extra activities – Sports, games,**
10. **Research,**
11. **Education Abroad – Qualified to study abroad**
12. **Migration – Qualified for Migration, On Site etc.**

We need to setup Candidate Profile Completion status to make sure that candidate profile is ready. We bring 10 point checklist for this,

1. **Personal Data**
2. **Address – All other Details**
3. **Education – Complete Education**
4. **Profession – Job History**
5. **Language – Language Skills**
6. **Tech Skills – All Tech Skills History**

7. Certification – If any
8. Projects – Previous projects, it details,
9. Social – Presence in Social Media
10. Candidate Questionnaire – Provided by Recruiter
11. Consultant Review – a Review from Recruiter
12. Candidate Profile Assessment – Candidate Assessment Status

2. Rate English Language of each candidate

We create space for language skill assessments. We can rate them in 4 categories, just like IELTS

1. Read
2. Speak
3. Write
4. Listen

And rate them to

1. Fair
2. Marginal
3. Poor

3. Do you need a Mobile App?

Check these Samples; we can develop Mobile Apps to get connected with candidates. Use latest technology for your business.
